NORMA G. THOMPSON,
OLIVE B. HUTCHINS,
Dental Hygienists.

TO THE HEALTH OFFICER:

I herewith submit my annual report for 1923 of the Dental Clinic of the Department:

There has been a marked improvement shown in all the schools this year, due to the excellent work of the two dental hygienists and the fine spirit of co-operation shown by the Superintendent of Schools and his entire corps of principals. The results of three years work are seen in the lessened number of those needing dental attention due to more frequent cleansing of the teeth and better mouth hygiene.

It has been my policy to save as many six-year molars as possible, even at the cost of much time in preparing root canals for filling where putrescent pulps have been found. Many of these cases have involved large restorations, but the teeth are doing their proper amount of service at the present time.

The hygienists have kept records of those needing dental attention which have been turned over to the school principals for their use in referring patients to the clinic.

Appended is a table of operations:

Report of the Board of Selectmen

To the Citizens of the Town of Greenwich:

Pursuant to law, we herewith submit a report of our expenditures for the year 1923, all of which we trust is explicit and satisfactory.

The principal improvements were:

The installation of the G. E. Highway Lighting units on the Post Road from the Stamford line to Strickland Road, Cos Cob. When the State completes the proposed pavement to the Port Chester line, we expect to extend the lights to that point.

The erection of granite entrance piers and a Telford roadway at Byram Park. Mr. Henry Steers again donated over 900 tons of sand to improve Byram Beach and we are advised by engineers that the sand should now find its level.

The acquisition by the Glenville Fire Department of a White Chemical apparatus gives adequate protection to that section and modern equipment to each company in the Town.

Respectfully submitted,

OSCAR D. TUTHILL,
HAROLD W. ALLEN,
JOHN BRODERICK,
Board of Selectmen.

Report of the Superintendent of Highways

To the Citizens of the Town of Greenwich:

In presenting the report of this department for 1923, I would like to call the attention of the taxpayers to the amount of permanent work accomplished. Out of available funds, approximating \$180,000, we have laid over four-fifths of a mile of concrete road and built four new masonry bridges. In addition, a new retaining wall was built to replace one that had failed and numerous dangerous corners were widened. The total cost of these permanent works was about \$66,000. If we add to this \$8,000, for new machinery, we see that over two-fifths of the annual appropriation has gone for work that will not have to be repeated.

The demands for better transportation are growing steadily and the only answer is permanent roads.

Respectfully submitted,

P. L. MINOR.

Report of the Sewer Commissioners

The Sewer Commissioners of the Town of Greenwich beg leave to submit for your consideration the following brief report for the fiscal year ending December 31st, 1923.

The Sewer Commissioners have held weekly meetings as well as made several inspections during the past year.

Extensions to the trunk line sewer mains of the Borough has been made as follows: A main or trunk line sewer through Grand Street, just off of Hamilton Avenue, an extension to the Hamilton Avenue Sewer, as well as a trunk line sewer constructed through a portion of Le Grande Avenue, just off of Davis Avenue.

Sewers at present are talked of in Sound Beach as well as Cos Cob, and the Pemberwick Road.

In conclusion we wish to thank our Townspeople in the various Sewer Districts for the interest they have shown in sewer matters.

Respectfully submitted,

HENRY E. SENFT,
HARRY C. FROST,
ALBERT C. PECK,

Sewer Commissioners of the
Town of Greenwich.
